Ai Revised Brief

9th July 2026

Forget about this brief...

It's much simpler now.

We need a generic City background, as before... needs some high rise buildings to look metropolitan... feel epic. A few people dotted around to look natural... mix of ages/ethnicities etc... although I doubt we'll see much of them. High contrast, almost illustrative like a movie poster.

We will drop a shot of Roman into the background.

The following crude ai mock up is good reference.

presents

NEW VODAFONE

The image will need to be relatively wide so we can accommodate landscape and portrait formats.

Dynamic city perspective

Layered & semi-illustrative

It can't be grey, miserable and post-apocalyptic.

Thanks
